Legionella Risk Management Training

The Role of the Responsible Person *RoRP

This legionella training course is to ensure those appointed as the Responsible Person (and their nominated Deputies) have the capability and skills for confident management of Legionella and water hygiene issues, as specified in The Control of Legionella Bacteria in water systems Approved Code of Practice and Guidance (Acop L8).

Areas Covered

- A thorough understanding of Legionnaires' Disease and Legionella, the bacteria that causes the disease
- Understanding of the current Guidance and Law, inc COSHH, RIDDOR, HSW Act 1974 and the ACoP L8 & HSG274
- (Parts 2 & 3)
- The duties of the Responsible Person – What they must do to stay within the law
- A 'Key Competencies' list for all staff
- The requirements of the written scheme to prevent and control risk
- The need for Legionella Risk Assessment, the requirement by ACoP L8 inc information on the British Standard BS: 8580
